

# Sibi Krishnamoorthy

PROJECT INTERN

## Profile

Experienced Project Intern with a strong background in data science and a passion for solving challenging business problems. Skilled in Python, data visualization, data modelling, Excel, Power BI, machine learning, and SQL. Proficient in predictive modelling, data processing, and data mining algorithms. Committed to leveraging my expertise in data management, research analysis, and client handling to contribute as a marcom specialist. Eager to utilize my skills in branding ideation, social media management, and data segmentation to enhance organizational growth and build robust brand identities. A dedicated and versatile professional with excellent communication skills and leadership abilities.

## Education

### B.E Computer science and Engineering (Data Science)

At Annamalai University Faculty of Engineering & Technology,

Chidambaram.

NOVEMBER 2022 - JUNE 2026

## Certification Course

### Python for Data Science, IBM

DECEMBER 2023 - JANUARY 2024

### Python Programming, Skillup by Simplilearn

NOVEMBER 2023 - JANUARY 2024

## Internships

### Project intern, Ineuron

JANUARY 2024 - TILL

During my time as a Project intern at Ineuron, I had the opportunity to work on various data science projects and apply my skills in Python, data visualization, data modeling, Excel, Power BI, and machine learning.

My responsibilities included:

- Collaborating with a team of data scientists and engineers to develop and implement predictive models and algorithms.
- Utilizing Python and SQL to process and analyse large datasets, extracting valuable insights and patterns.
- Creating data visualizations and dashboards using tools such as Power BI to effectively communicate findings to stakeholders.
- Conducting data modeling and optimization to improve business processes and decision-making.
- Applying machine learning techniques to develop predictive models and make data-driven recommendations.
- Implemented project lifecycle management processes to ensure project requirements were documented and tracked throughout the project.
